United States, in accordance with custom, has issued his proclamation, appointing and setting apart a day of festival and thanksgiving to be observed by all the people of the United States: now, therefore, I, Albert B. White, Governor of the State of West Virginia, do hereby proclaim and

Thursday, November 24, as Thanksgiving day to be observed by the citizens of West Virginia. On that date the people are requested to cease from their ordinary occupations and to assemble in their various places of worship or homes, there to devout ly thank the Giver of All Good for his many mercies and blessings conferred upon us as a Nation, as a Commonwealth and as individuals, and to beseech a continuance

of God's favors upon us.

As one of the sisterhood of States of this great country. West Virginia has been favored greatly during the past year. Our material development has continued and expanded; our husbandmen ous crops; -we have been spared Regardless of the inclemency from pestilence and great disasters; our people have been contented, happy and prosperous and each and all have abundant reason to feel gratitude and to abound in the spirit of thanksgiving, We have been more generously favored than some other sections of our great country and should be correspondingly grateful.

Never were religious, education our State doing as great and beneficent work as at present. The uplifting influences of our communities were never more active and their results more marked. The future is bright with promise and West Virginians are full of hope and courage.

Under these circumstances this annual festival and day of praise should be even more generally observed than on any similar aniver-

Given under my hand and the great seal of the State, at the city of Charleston, on this the eighth day of November, in the year of our Lord, one thousand, nine hundred and four, and of the State the forty-second.

By the Governor: ALBERT B. WHITE. W. M. O. Dawson, Secretary of State.

#### The Printer's Mistakes.

None but the initiated know the accurecy required in a printing office. The average reader who detects a mis-spelled word or a letter upside down feels that his work on earth is not accomplished until he has called the attention of the overworked editor to the glaring defect. He does not notice the thousands and tens of thousands of letters that are in place or the multitude of words correctly spelled, but his eage eye is glued on the one that is out of place So it is with our deeds. Man does a thousand good deeds and no attntion is paid to them, but if he makes one mistake it is flashed all over the world. A lifetime may be spent in building up a reputation that may be wrecked in a moment. The world is a harsh critic, exactng to a fault-
